## Alabama Law Enforcement Agency

### A Message from the Secretary of Law Enforcement

The Alabama Law Enforcement Agency (ALEA) is committed to improving public safety in the State of Alabama. ALEA is a multifaceted agency and provides a variety of services and programs to citizens, as well as other law enforcement agencies.

ALEA works closely with county and municipal law enforcement agencies throughout the state and provides assistance for numerous issues facing law enforcement including targeted patrols, complex criminal investigations, aviation support for missing persons and manhunts, and serves as the lead for statewide narcotics investigations. Additionally, each year as part of our Uniform Crime Reporting (UCR) program, our agency partners with local agencies to produce Crime in Alabama, a statistical analysis of municipal and county law enforcement agencies.

Crime in Alabama, now in its 40th year, details criminal activity that occurred in Alabama during 2015 for specific municipal and county jurisdictions. Using methodology prescribed by Federal Bureau of Investigation's (FBI) Program, the publication includes data sets for Part I crimes – Homicide, Rape, Robbery, Assault, Burglary, Larceny, Motor Vehicle Theft and Arson. It also provides an analyses of data for other crimes, as well as arrest, clearance, and law enforcement employee data.

The publication should not be used to evaluate or compare one local law enforcement agency with another but as a resource to measure the municipal or county law enforcement agency's response to crime.

We look forward to our continued publication of Crime in Alabama and to future enhancements designed to improve public safety through the delivery of criminal justice statistical information.

Sincerely,

Secretary of Law Enforcement Stan Stabler

### Dedication

This report is dedicated to Alabama's law enforcement officers who protect and defend the citizens of this state. In particular, we would like to honor the memory of Alabama's peace officers who lost their lives in the line of duty in 2015.

### Preface

The 2015 Crime in Alabama report is intended to inform law enforcement officials and private citizens of criminal and law enforcement activity reported in county and municipal jurisdictions in Alabama. Since the UCR offense and arrest data are the basis of this report, it must be noted that other factors affecting crime are not measured by UCR, such as age, sex, and race of the population, economic conditions of the area, transient population, culture, education, climate, attitudes of the victims toward crime and police, and crime reporting practices of the citizens. Therefore, it is difficult to draw conclusions or make valid comparisons between various local jurisdictions by using only the crime and arrest data in this book. The data in this book are used for analyzing crime problems inherent in the criminal justice system and as a foundation for planning and budgeting. Geographic areas covered in this report include the State of Alabama, county and city strata.

We would like to extend our appreciation to local law enforcement agencies – sheriffs' departments, municipal police departments, and campus police – for their cooperation in the UCR program.

#### PLEASE NOTE

In 2013, the FBI UCR Program initiated collection of data under a new definition for forcible rape. The term "forcible" was removed, and the definition changed to "penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim." Rape statistics found in this report are not an actual representation of comparative data from 2015 to 2012.

#### Crime and Arrest Data

.....

Valid crime data can provide a solid foundation for statistical analyses, management-oriented analyses and crime breakdowns. These analyses can then aid local police departments and county sheriff departments in laying out patrol districts, assigning patrol units, and designating community education programs.

Data used in this report are provided by the Alabama Law Enforcement Agency (ALEA). ALEA's data center houses the official state repository for reported arrests and offenses, and is responsible for collecting and disseminating crime data. In 2015, approximately 350 agencies reported known offenses to Alabama's UCR; more than 99 percent of Alabama's law enforcement agencies submitted Incident Reports.

Through a mandate of Congress, Arson is counted as a Part I Offense. So as not to distort crime trends in Total and Property Crime indices, Arson totals will not be included in these sections but will be included in a separate section following property crimes.

Crime data are obtained from the Part I Index of Offenses submitted by law enforcement agencies to Alabama's UCR program. These Part I Offenses are divided into Violent Crime and Property Crimes.

Violent Crimes include Homicide, Rape\*, Robbery, and Assault. These crimes are considered violent inasmuch as they are offenses perpetrated against a person(s) with a high risk or injury or death to the victim(s). Property Crimes comprise Burglary, Larceny, Motor Vehicle Theft, and Arson\*. Property or Nonviolent Crimes lack the aspect of force and/or bodily harm to the victim(s).

Clearance and arrest data are also reported to Alabama's UCR. A crime is considered cleared, either by arrest or by exceptional means, when enough evidence is found to charge a suspect and take him/her into custody. It is conceivable that one arrest could clear several offenses or that several arrests could clear one offense. The clearance rate is achieved by taking the number of clearances over the number of crimes reported:

#### CLEARANCE RATE = <u>CLEARANCES</u> REPORTED CRIMES

This report is a composite picture of county and municipal crime and law enforcement activity in Alabama for 2015. It provides a breakdown of individual county and municipal jurisdictions as well as cumulative data for the State from the localities participating in the UCR program. The report concentrates on the Index Crime of the FBI's Part I Offenses and offers tabular and narrative formats for comparisons, trends, rates, and percent changes.

\*Prior to 2013, Rape included only female victims. In 2013, the definition of rape was expanded by the FBI's Uniform Crime Reporting Program to include male victims and other types of sexual assault offenses. Because of this change, the number of reported rapes increased significantly from 2012.

<sup>\*</sup>A separate section on Arson will be included in this report.

## Definition of Terms

Term	Definition
Adult	the UCR system defines adults as 18 years of age and over.
Arrest	a measure of law enforcement activity by which an individual is detained in legal custody.
Arson	willful or malicious burning with or without intent to defraud, includes attempts.
Assault	unlawful attack by one person upon another for the purpose of inflicting severe bodily injury, including attempts. Attempted homicide is listed as an aggravated assault.
Burglary	unlawful entry of a structure to commit a felony or theft.
Central City	a city with at least 50,000 residents.
City Strata	a breakdown of cities according to population.
Clearance	a measure of law enforcement activity that shows a crime has been solved for crime- reporting purposes either by the arrest of a suspect or by exceptional means. Exceptional means provides a solution to a crime when there is enough evidence to place a formal charge against an offender, but some element beyond law enforcement control precludes an actual arrest. It is possible for one arrest to clear more than one offense.
Clearance Rate	the clearance rate is achieved by taking the number of clearances over the number of crimes reported.
Crime Rate	a measure of criminal activity that shows the number of crimes reported per 100,000 residents.
Criminal Activity	measured by reported crimes, trends, rates.
Forcible Entry	offenses in which force of any kind is used to unlawfully enter a structure for the purpose of committing a theft or felony.
Hierarchy of Offenses	when more than one offense is committed simultaneously, the most severe offense is reported to UCR. The exception is arson, which is always reported along with the most serious offense.
Homicide	the willful killing of another as based on police investigation.
Incident Based Reporting (IBR) System	a voluntary crime reporting system ALEA developed as an alternative to the UCR Summary Program.
Juveniles	the UCR system defines juveniles as males and females 17 years of age and younger.
Larceny	unlawful taking or stealing of property or articles without the use of force, violence or fraud, e.g., pocket picking, purse snatching, shoplifting, theft from vending machines, etc.
Law Enforcement Activity	police activity as measured by clearances and arrests.
Minimal Injury	personal injury involving abrasions, minor lacerations requiring no more than usual first-aid treatment.
Motor Vehicles	automobiles, trucks, buses, motorcycles, etc.
Motor Vehicle	unlawful taking or stealing of a motor vehicle, including attempts.

Theft	
Non-Residence	any structure used for purposes other than a residence.
Part I Index Crimes	a category of UCR offenses deemed more serious and/or most frequent. The Part I Index Crimes include homicide, rape*, robbery, aggravated assault, burglary, larceny, motor vehicle theft, and arson.
Property Crimes	a category of UCR offenses that include: Assaults (Simple): non-aggravated assaults. Forgery and Counterfeiting: making, altering, uttering, or possessing with intent to defraud, anything false that is made to appear true, includes attempts. Fraud: fraudulent conversion and obtaining money or property by false pretenses. Embezzlement: misappropriation or misapplication of money or property entrusted to one's care, custody, or control. Stolen Property: buying, receiving, and possessing stolen property, includes attempts. Vandalism: willful or malicious destruction, injury, disfigurement or defacement of property without the consent of the owner or person having custody or control. Weapons: all violations of regulations or statutes controlling the carrying, using, possessing, furnishing and manufacturing of deadly weapons or silencers, includes attempts. Prostitution and Commercialized Vice: sex offenses of a commercial nature. Sex Offenses (Other): statutory rape, offenses against chastity, common decency, morals, etc. Narcotic Drug Laws: offenses relating to narcotics, e.g., possession, sale, use, growing and manufacturing of narcotic drugs. Gambling: promoting, permitting, or engaging in illegal gambling. Offenses Against the Family and Children: non-support, neglect, desertion, or abuse of family and children. Driving Under the Influence: driving or operating any motor vehicle or common carrier while drunk or under the influence of liquor or narcotics. Liquor Laws: violations of state or local liquor laws. Drunkenness: intoxication. Disorderly conduct: breach of the peace. Vagrancy: begging, loitering, etc. All other offenses: all violations of state or local laws, except categories mentioned above, Part I Offenses, and traffic violations. Including, but not limited to bigamy, blackmail, bribery, contempt of court, discrimination, perjury, possession and/or sale of obscene material, quarantine violations, ctc.  (non-violent crimes) index crimes that lack the aspect of force and/or bodily harm to the victim(s)
Rape	In 2013, the FBI UCR Program initiated collection of data under a new
	definition for forcible rape. The term "forcible" was removed, and the definition changed to "penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of

	another person, without the consent of the victim."
Recovery	finding stolen property. It should be noted that a recovered article does
	not clear a crime, although the owner is reunited with his property, a crime
	was committed and a suspect must be taken into custody to clear the
	offense.
Reported Crimes	crimes reported to law enforcement officials. Note: In this report, only those
	offenses that prove to be actual offenses are used. Those cases that have been deemed
Residence	unfounded are excluded from the crime totals.
	any dwelling structure used for human habitation.
Robbery	stealing or taking anything from the care, custody, or control of a person, in his presence by force or by threat of force including attempts. Poblary
	in his presence, by force or by threat of force, including attempts. Robbery is broken down into seven categories:
	Highway: robberies occurring on the streets, in alleys, outside of
	structures.
	Commercial House: hotels, motels, lodging houses, etc.
	Gas or Service Stations: businesses selling gasoline and related
	products.
	Convenience Stores: neighborhood stores specializing in the sale of
	consumable items.
	<b>Residence:</b> robberies occurring in a dwelling or on the premises.
	Banking Establishments: banks, savings & loan institutions, credit
	unions, etc.
	Miscellaneous: churches, temples, schools, union halls, government
Comiona Inimar	buildings, public transit systems, etc.

Uniform Crime	standardized reporting forms used by law enforcement officials to report
Reports	criminal activity within their jurisdiction.
Uniform Crime	official state repository of the Uniform Crime Reports and Incident
Reporting	Reporting forms and provides for the collection and dissemination of
System	crime data.
Unlawful Entry	involves no force and is achieved by use of an unlocked door or window.
	The element of trespass is essential.
Urbanized Areas	incorporated or unincorporated places of 2,500 or more inhabitants.
Violent Crimes	index crimes that are offenses perpetrated against a person (or persons)
	with a high risk of injury or death to the victim. Crimes included in this
	category are homicide, rape, robbery, and assault.

#### Total Index Crime

Total Index Crime comprises Part I Offenses: Homicide, Rape\*, Robbery, Assault, Burglary, Larceny, Motor Vehicle Theft, and Arson.\* Both offense and arrest data are collected for Part I crime.

\*Prior to 2013, Rape included only <u>female</u> victims. In 2013, the definition of rape was expanded by the FBI's Uniform Crime Reporting Program to include male victims and other types of sexual assault offenses. Because of this change, the number of reported rapes increased in 2013 compared with 2012. The crime rate for rape per 100,000 population decreased in 2013 compared with 2012, because it now includes both male and female population, where previously it included only the female population.

## Appendix C

Appendix C contains Part I offense data reported by individual city police departments, county sheriff's offices, and university police departments. City data is presented first and reflects percent increase or decrease over the prior year, followed by a section with clearance data. County sheriffs' departments follow the section on City data, and also reflect percent increase or decrease over prior year and clearance data.

## City Data

Alabama's cities will include incorporated and unincorporated areas grouped by population strata.

The tables on the following pages group cities according to population and list city names alphabetically. The percent change is the increase or decrease in reported crime over 2014. The numbers in parentheses indicate the number of months the agency reported to UCR if less than twelve months.

This report does not try to account for factors which contribute to the number and type of crime in a particular area, e.g., age, sex, race of population, transients, climate, employment, etc. Any effort to make crime comparisons between one area and another should be limited in scope, and one should acknowledge the existence of these various factors impacting the incidence of crime.

## Clearance Rates

A clearance is a measure of law enforcement activity whereby enough evidence is found to charge a suspect and take him into custody (an arrest) or when a crime is solved but no formal charges are brought against a suspect (clearance by exceptional means). The clearance rate is achieved by taking the number of offenses and dividing that number into the number of clearances.

<u>CLEARANCES</u> = CLEARANCE RATE REPORTED OFFENSES

It is important to note that clearance data is reported on a monthly basis to UCR; therefore, it is possible for an arrest made in one month to clear a crime committed in previous months or years.

## County Data

Alabama comprises 67 counties, each averaging 756.8 square miles.

Incorporated and unincorporated areas without a municipal police department are protected by the county sheriff and are included in his jurisdiction. Since UCR data deals with criminal activity in a particular geographic region rather than with law enforcement agencies' activities, this agency does not intend, nor recommend, that this data be used to evaluate or compare one agency with another.

Due to diverse demographic characteristics, the county data will be presented in alphabetical order rather than by population strata. It will include reported crime and clearance data submitted by Alabama's 67 county sheriffs. County data does not include crime data submitted by municipal police departments contained within the county boundaries. The numbers in parentheses on the following pages denote the number of months the agency reported to UCR if it was less than 12.

## Clearance Rates

A clearance is a measure of law enforcement activity whereby enough evidence is found to charge a suspect and take him into custody (an arrest) or when a crime is solved but no formal charges are brought against a suspect (clearance by exceptional means). The clearance rate is achieved by taking the number of offenses and dividing that number into the number of clearances.

<u>CLEARANCES</u> = CLEARANCE RATE REPORTED OFFENSES

It is important to note that clearance data is reported on a monthly basis to UCR; therefore, it is possible for an arrest made in one month to clear a crime committed in previous months or years.

## History of UCR in Alabama

In October 1975, Act 872 passed both houses of the Alabama Legislature, creating and establishing the Alabama Criminal Justice Information Center (ACJIC), which is commissioned to collect, store, retrieve, analyze, and disseminate criminal justice data. Inherent in ACJIC is a "uniform crime reporting system for the periodic collection and analysis of crimes reported to any and all criminal justice agencies within the state." (Act 872, Section 9, 1975)

With the passage of this bill, mandatory reporting was required of law enforcement agencies in Alabama. Prior to 1976, law enforcement agencies participated in the FBI's Uniform Crime Reporting Program (UCR) on a voluntary basis. Since mandatory submission, there has been a 185 percent increase in UCR reporting.

Alabama's UCR program functions in accordance with the FBI's standards of operation, which specify a uniform data collection device and quality control procedures that provide viable crime statistics for accurate indication of crime and crime trends.

ACJIC implemented an incident-based reporting system as an alternative to UCR summary reporting in 1977. This Incident Based Reporting (IBR) System also provides a self-contained internal recordkeeping system for the agency. IBR is a voluntary system with 99 percent of Alabama's agencies participating. This reporting program is more detailed, providing greater potential for services, analyses, and resource studies by both the individual agency's crime analysis units and ACJIC.

In 1986, ACJIC organized a 32-person UCR Committee to review the IBR report forms. This committee was made up of law enforcement personnel from small, medium and large police departments and sheriffs' departments, computerized agencies, the FBI, and the Bureau of Justice Statistics (BJS). The committee reviewed and analyzed the 10-year-old forms and decided enhancements were needed. The IBR report forms were redesigned with input from Alabama's local agencies. In 2006, these forms were redesigned to conform to the FBI's Nation Incident Based Reporting System (NIBRS). The new forms became the official state forms in 2010.

In 2013, the Alabama Legislature passed Act 2013-67, creating the Alabama Law Enforcement Agency (ALEA), which represents the consolidation and realignment of 12 state law enforcement agencies/functions into one entity. ALEA is now responsible for the functions and missions of the Alabama Department of Homeland Security, Department of Public Safety, Alabama Bureau of Investigation, Fusion Center, Criminal Justice Information Center, Marine Police, Alcoholic Beverage Control Board Enforcement, Department of Revenue Enforcement, Forestry Commission Investigations, Agricultural and Industry Investigations, Public Service Commission Enforcement, and Office of Prosecution Service Computer Forensics Lab. Upon full implementation of Act 2013-67 on January 1, 2015, the UCR Program was transferred to the ALEA Information Bureau.
